

FEBRUARY 2010

EXPANSION CAUSES DSC RELOCATION

We are proud to announce our new San Angelo, Texas location. Our move is due to the out growing of our old location. The new location is located in the **Medical Arts Plaza 2102 Pecos St. Suite 11 San Angelo, Texas 76904.**

This convenient location was carefully planed with you our customer in mind. We would like to invite you to celebrate our expansion and growth in Concho Valley at your Drug Screen

Compliance office. We are grateful to our San Angelo area clientele. Our expansion was only possible by your continued support. Your business is appreciated!

This move has us temporally under construction through reconnecting our equipment. We thank you for your patience.

All office manag-

ers are available for any questions you may have and to assist you with any inconvenience that may occur. Please make note of the new location.

WE ARE ALWAYS ON-CALL

Expose Secrets Before They Get You— HAIR TEST!

The secret that may cost you big money can be exposed for a penny of what the outcome of-ten is. History can tell you a lot about your prospective new hires future with your company. Would you hire someone without verifying their work history?

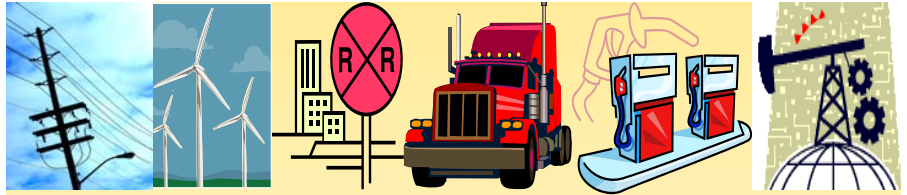

Would you like to know if the new-hire has been using drugs within the last three months before you hire them? To have a 90 day drug use history on a potential employee can be very beneficial to your company. Urine drug test are a great choice but if you want to

have a 90 day window a hair test is the answer. A urine drug test provides a much smaller window of detection. Companies doing hair test for pre-employments have found the benefits of their choice to hair test save the company allot of money.

"Stopping Abuse in America's Workplace"

DSC helps keep your company in compliance with specific industry regulations. See our web page training tab to select your training and contact any manager to schedule, today!

- Mandatory Supervisor Drug and Alcohol Awareness
- DOT Urine Collector Class
- STT Alcohol Technicians Class
- Breath Alcohol Technicians Class (BAT)
- Designated Employer Representative Class (DER)

We specialize in helping companies stay in compliance with drug testing regulations. We love seeing you save money by being in compliance.

LOU'S LAB., Inc. MAKES PLANS IN THE BEST INTEREST OF EMPLOYEE'S

Every time a heart beats some love is spread around. Lou's Clinical Lab., Inc. has provided a resource to its community and employers for 44 years of dedicated service in providing a low cost way to get blood work done at only a fraction of the cost. Through an event that happens four times a year we call the **West Texas Health Screen** loyal customers coming back year after year taking advantage of the savings. The first West Texas Health Screen of 2010 is scheduled for MARCH 1st -12th. We have seen how important the Screens are and find that many of the people who do not take advantage of the events tend to be too busy working. We have been in meetings designing **Lou's Mobile Employee Wellness Package** for 2010. Lou's showing employers some love

through a mobile lab option for your employees. This will allow employers and organizations to help beat rising cost and show their love for those who take less time to focus on their wellness needs. *There are few things that show love and support of employees like a sincere concern for their health.* Health care concern related to quality and affordability are real. This gives all the reason for implementing a prevention program of health screenings your employees. Prevention through health screenings can prevent the need for more extensive health care in the future. Pro-active screenings allow for risk to be found and something to be done. Call Marivel @ 432-332-9421 to discuss and schedule your companies employees wellness program!

Save a life by bringing our program to your company.

Happy Valentine's Day

When you call we're there for you!
